SAYALI S. MAHAMUNI

Phone: +91-8010371955 **GitHub:** https://github.com/SayaliMahamuni-SoftwareTester
Email: sayali.mahamuni00@gmail.com **LinkedIn:** linkedin.com/in/sayali-mahamuni-software-tester

PROFESSIONAL SUMMARY

Postgraduate in Computer Applications with hands-on experience in **manual** and **automation testing**. Skilled in **test case design**, **UI** and **functional testing**, **bug reporting**, **test planning**, and QA documentation. Proficient in **Selenium WebDriver**, **TestNG**, **SQL**, and **Postman**. Strong analytical mindset, attention to detail, and a commitment to delivering high-quality software as a Software Tester.

SKILLS AND EXPERTISE

Software Testing: Manual Testing, Functional Testing, Regression, Smoke, Sanity, UAT, UI Testing
Automation Testing: Selenium WebDriver, TestNG, Maven, Page Object Model (POM), XPath, CSS Selectors
Programming & Scripting: Java, SQL, UNIX Commands, OOP Concepts, Exception Handling, Collections
API & Database: Postman, Oracle, SQL Queries, JSON, Database Validation
Tools & Platforms: JIRA, GitHub, Eclipse, Excel
Testing Concepts: SDLC, STLC, Defect Life Cycle, Severity & Priority, TestNG Annotations, Synchronization**, Assertions,** Listeners, Parameterization, Data-Driven Testing
Soft Skills: Analytical Thinking, Problem Solving, Communication, Team Collaboration

PROJECTS

Manual Testing Project | SauceDemo (E-commerce Web Application)
- Analyzed requirements and created detailed functional & non-functional test scenarios.
- Designed and executed **positive, negative, UI, regression, and functional test cases**.
- Logged and tracked defects with proper expected vs actual results.
- Prepared **Requirement Traceability Matrix (RTM)** and **Test Summary Report** for full test cycle.

Automation Testing Project | OpenCart (E-commerce Web Application)
- Created automation scripts using **Selenium WebDriver + Java** for UI workflows.
- Implemented **Page Object Model (POM)** for reusable, maintainable test scripts.
- Executed and validated tests using **TestNG**, including assertions and test grouping.
- Tracked defects and maintained versions using **JIRA and GitHub**.

Prompt Engineering for Software Testing | Self-Learning Initiative
- Generated test cases, test scenarios, RTM, bug reports, and documentation using ChatGPT.
- Applied AI-based testing techniques on **SauceDemo, OpenCart, and DemoQA**.
- Improved testing accuracy and productivity using structured prompt engineering.

EDUCATION

Master of Computer Applications (MCA), Savitribai Phule Pune University (2022)
Bachelor of Computer Science (BCS), Shivaji University, Kolhapur (2020)

CERTIFICATIONS & TRAINING

Java Certification Course – Simplilearn (Certified)
- Completed certification in Core Java including OOP, exceptions, loops, arrays, and strings.
- Built and debugged Java applications using Eclipse IDE.

SDET Training Program (Non-Certification Training)
- Learned Agile, Waterfall, SDLC, STLC.
- Designed functional and non-functional test cases.
- Automated scripts using Selenium WebDriver & TestNG.
- Performed SQL database validation.
- Used JIRA for defect tracking and reporting.

PROFESSIONAL STRENGTHS

- Strong analytical mindset with high attention to detail.
- Clear communication of defects and test reports.
- Quick learner, adaptable to tools and processes.
- Dedicated to improving software quality through thorough testing.
